

Training Course 2

Solvents and their applications

A one-day course designed to offer an insight into the
fascinating uses of solvents in our everyday lives

Who should attend?

This course is designed to support the previous 'Introduction to the Solvents Industry' course and is aimed at anyone within the solvents industry who would like to acquire a greater understanding of where solvents are used in the manufacture of everyday items.

May 2024

From 10:00 am to 3:30 pm

Cefic office
Brussels | Belgium

October 2024

From 10:00 am to 4:00 pm

Lyondell Office
Rotterdam | Netherlands

Fee

The fee for this one-day course (including lunch/drinks & training material) is supported by ESIG for ESIG members and amounts to €250 for non-ESIG members.
